NATIONAL INSTITUTE OF TECHNOLOGY PATNA • HOSTEL ADMINISTRATION

NITP-SafeExit — Warden Operating Procedure (SOP)

Official setup, device installation, and daily operational reference for Wardens & Asst. Wardens.

SE WARDEN

SCAN TO OPEN

Official SafeExit Portal & Web App

PORTAL LINK: `erp.nitp.ac.in/safeexit`

WARDEN DIRECT: `erp.nitp.ac.in/safeexit/login/warden`

PWA App Android • iOS PC / Mac

PWA Installation: SafeExit is an installable *Progressive Web App*. Wardens do not need to download an APK or search app stores. Install directly to your phone/PC home screen for native app speed and push alerts.

1. Download & Install the App — ONE-TIME

Android Phones (Google Chrome)

1. Open **erp.nitp.ac.in/safeexit** in **Chrome** (not WhatsApp/in-app).
2. Tap the bottom banner **Install SafeExit**.
3. Or tap Chrome menu (⋮) → tap **Install app** / **Add to Home screen**.
4. Confirm **Install**. Launch SafeExit from your home screen icon.

iPhone / iPad (Apple Safari)

1. Open **erp.nitp.ac.in/safeexit** in **Safari**.
2. Tap the **Share** icon (square with upward arrow).
3. Scroll down and select **Add to Home Screen**.
4. Tap **Add** in the top-right. Open SafeExit like any iOS app.

Laptops & PCs (Chrome / MS Edge)

1. Open the portal link in Chrome or Edge.
2. Click the **Install** icon in the address bar (right corner).
3. Click **Install** to add SafeExit as a desktop application.

2. Sign-In & Authentication — SECURITY

1. Launch the installed app, or open **/login/warden**.
2. Tap **Sign in with Google**.
3. Select your official Institute email (**@nitp.ac.in**).
4. **Zero Password Hassle:** No passwords, IDs, or PINs to remember or risk sharing. Access is strictly tied to verified college credentials.
5. **Auto-Hostel Assignment:** The system automatically binds you to your designated hostel (Aryabhatta, Brahmaputra, Kosi, Ganga, Bagmati).

> **Access Note:** Only accounts pre-approved by the Chief Warden / Admin can log in. If you see *"Not registered as warden"*, contact the hostel administrator.

3. First-Time Setup Checklist — REQUIRED

- **Upload / Draw Digital Signature:** Go to *Profile* or *Leave Desk* → draw or upload your signature once. Your signature is permanently stamped on approved leave gate passes.
- **Enable Push Notifications:** Tap **"Enable"** when prompted. Allows immediate sound and notification alerts for new leave requests & emergencies even when the app is closed.

4. Daily Operational Workflow & Responsibilities — DAILY DESK

1 Review Leave Applications (Leave Desk)

Girls' Hostels: Every leave request arrives concurrently on the Warden, Asst. Warden, and Caretaker queues. *The first officer to act decides.* Verify student face photo, roll number, leave duration, reason, destination, and parent contact.

Boys' Hostels: Leave requests are auto-approved per institute policy. Wardens hold full authority to review, audit, or **Revoke** approval at any point.

2 Approve or Reject with 1 Tap

Tap **Approve** — your stored digital signature is cryptographically affixed to the pass, and the student's gate exit QR code is generated instantly. If rejecting, provide a clear brief reason.

3 Local Daily Outings (Curfew Rules)

Routine daily outings do *not* require manual warden approval. Students scan out and in at the main gate scanner. Outings are automatically tracked against evening curfew hours.

Emergency SOS Alerts
High-priority visual & audio siren for any student in distress. Displays student identity, room number, exact timestamp, and 1-tap phone dials to student & parent.

Overdue Tracking
Instantly lists students who missed their gate curfew or leave return deadline. One-tap direct call to student and guardian for prompt follow-up.

Student Delay Notices
Review advance late-arrival submissions filed by students prior to curfew deadline explaining transit delays with supporting details.

Live Movement Logs
24/7 searchable real-time audit trail of all student gate entries and exits scoped exclusively to your assigned hostel.

> **Hostel Safety Rule:** Treat all Active SOS alerts and Overdue flags as immediate priority. Coordinate with gate security and the hostel caretaker for rapid physical checks.

5. Quick Troubleshooting & Guidelines — SUPPORT

- **Multiple Wardens:** Decisions sync live across all wardens and caretakers of your hostel. Once decided, the entry clears from other officers' queues.
- **Offline / Slow Network:** The PWA caches offline data and will automatically synchronize pending actions when network connectivity resumes.
- **Signature Changes:** To update your stored signature, visit the *Profile* tab and tap *Edit Signature*.
